THE MINISTER OF HOME AFFAIRS (SHRI INDRAJIT GUPTA): (a) The following funds have been released to the Government of Andhra Pradesh under the Scheme for Modernisation of Police Forces:

Year	Amount released (in lakhs)
1994-95	104.780
1995-96	309.560
1996-97	209.560

Apart from above, an additional amount of Rs. 1 crore was released to the Government of Andhra Pradesh during 1995-96.

(b) "Public Order" and "Police" being State subjects, it is for the concerned State Governments to devise various methods and take concrete steps in this regard. At the Central level, action is taken to facilitate coordination of the anti-naxalite operatons of different States and to improve flow of information useful for control of naxalite activities among the States. Further, help is being provided to the State Governments in terms of financial assistance for modernisation of police, supply of improved weapons, deployment of paramilitary forces etc.

ISI smuggling in Bihar border

3038. SHRI JANARDAN YADAV:
SHRIMATI VEENA VERMA:
SHRI SUSHILKUMAR SAMBHAJI-RAO SHINDE:

Will the Minister of HOME AFFAIRS be pleased to state:

(a) whether Government are aware that ISI has stepped up its activities including smuggling of contraband items along the Bihar Sector and has taken steps to spread discord along the population living in the border areas;

(b) if so, the details thereof;

(c) the number of Bangladeshi and Pakistani and others arrested in 1994-95 along Bihar Sector

(d) the quantity of narcotics, arms and ammunition, gold and contraband items seized alongwith the value thereof during the past three years along the Bihar Sector; and

(e) what steps have been taken to monitor and control the situation?

THE MINISTER OF HOME AFFAIRS (SHRI INDRAJIT GUPTA): (a) to (e): Information is being collected and will belaid on the Table of the House.

Non-utilisation of capacity of Telephone Exchanges

3039. SHRIMATI JAYANTI PATNAIK:
SHRI SOLIPETA RAMCHANDRA REDDY:
SHRIMATI JAYAPRADA NAHATA:
DR. D. VENKATESHWAR RAO:
SHRI RAGHAVJI:

Will the Minister of COMMUNICATIONS be pleased to state:

(a) the capacity utilisation of telephone exchanges between 1991-92 and 1994-95, yearwise;

(b) the details of loss of revenue on account thereof during that period, year-wise;

(c) the reasons for not fully utilising the exchanges;

(e) if not, the reasons therefor?

THE MINISTER OF COMMUNICATIONS (SHRI BENI PRASAD VERMA): (a) Capacity utilisation of telephone exchanges between 1991-92 and 1994-95, yearwise is as given below:

Year	% age of capacity utilisation
1991-92	85.68
1992-93	85.30
1993-94	81.93
1994-95	81.46

(b) There is no revenue loss as the targets set for providing the telephone connections were achieved.

(c) Reasons for not utilising the exchanges fully are given in the enclosed statement: *(See* below).

(d) and (c) Does not arise in view of (b) above.

Statement

The reasons for not utilising the exchanges fully

(i) Need to reserve some switching capacity to meet the emergency requirements of providing temporary

and casual connections and also for completing the shifting cases of phone from one area to another.

(ii) Need to reserve switching capacity for maintenance (for change of subscriber ports in case of hardware faults) and for test purposes.

(iii) Department provides electronic exchanges of capacity 56 lines and 88 lines with a registered demand of ten in rural areas. This result in low utilisation of exchange capacity.

(iv) Small and medium size exchanges, the expansion takes place in higher modular capacities which takes a few years to reach fully loading.

(v) Distribution of telephones in urban area and rural area as on 31.3.91 was in the ratio 89.S: 10.S whereas this ratio as on 31.3.96 is 84:16. The increase in rural coverage is also a major contributory factor in lowering the average utilisation of the exchange capacities.

(vi) At the time of commissioning of a large size exchange, the expected loading of large size exchanges is about 60% and in about six months time it is expected to be optimally loaded subect to the availability of demand. So, with every expansion and commissioning of new system, the utilisation drops to pick up in the later part of the year.

2. Further, the utilisation of Switching Capacities is dependent on:

(i) The growth rate of the network — higher the growth rate lower the utilisation. Growth rate increased from 12.27 (1991-92) to 22.28 (1995-96) and the capacity utilisation decreased from 85.68 to 81-89 in the respective years.

(ii) lower the ratio of wait list to net switching capacity, the lower will be the utilisation because in more number of exchanges telephone will be available on demand. The ratio of waiting list to net switching capacity ratio 0.34 (1991 -92) to 0.16 (1995-96) and the capacity utilisation decreased from 84.68 to 81.89 in the respective years.

2. High expansion rate of network in the recent past, namely during the 8th Five Year Plan accompanied by progressive reduction in the waiting list has resulted in lower utilisation.

Budgetary support to Sick Public Sector Undertakings

3040. SHRI KRISHNA KUMAR BIRLA: Will the Minister of TEXTILES be pleased to state:

(a) whether his Ministry has urged the Finance Ministry to provide adequate budgetary support for sick Public Sector Undertakings;

(b) if so, the details thereof;

(c) whether Government have made any efforts to revive sick PSUs under his Ministry; and

(d) if so, the details thereof?

THE MINISTER OF TEXTILES (SHRI R.L. JALAPPA): (a) and (b) 5 Public Sector Undertakings under Ministry of Textiles have been declared sick by the BIFR under the provisions of Sick Industrial Companies Act (SICA). The Government has been providing Budgetary support to these undertakings. During 1996-97 following provisions have been made for these Undertakings in the Budget:

(Rs in crores)

1.	NTC	243.00
2.	BIC	17.00
3.	Elgin Mills	14.35
4.	Cawnpore Textiles	5.00
5.	NJMC	80.00

(c) and (d) The Sick Public Sector Undertakings have been referred to BIFR under the provisions of SICA. Their rehabilitation packages are presently under consideration of the BIFR and AAIFR.
